AUTHOR INDEX

Abbott, N.J.
Protection from Fire: Nonflammable Fabrics and Coatings, p. 48

Barker, R. H.
A Flame Retardant Coating for Textile Applications, p. 182

Carey, D. A.
Fabrethane, A One Component Urethane Foam Fabric Coating, p. 13

Damant, G. H.
Relative Toxicity of Pyrolysis Products From Some Upholstery Fabrics, p. 155

Damewood, J.
Polyurethane Direct Coated Fabric For Industrial Uses – A Market Study, p. 200

Glanzstoff, E. (Holland)
The Fabric-Lined Purification Basin
Fabric Products and Markets in Truck Transportation, p. 137
Rubberized Industrial Fabrics to Help Save Venice, p. 195
Industrial Woven Fabrics for Soil Stabilization, p. 208

Gohlke, D. J.
Gore-Tex Waterproof Breathable Laminates, p. 28

Herbes, W. F.
The Use of Various Phosphonium Salts for Flame Retardance by the Ammonia Cure Technique, p. 121

Hilado, C. J.
Relative Toxicity of Pyrolysis Products from Some Upholstery Fabrics, p. 155

Hooper, G.
The Use of Various Phosphonium Salts for Flame Retardancy by the Ammonia Cure Technique, p. 121

Jarvis, C. W.
A Flame Retardant Coating for Textile Applications, p. 182

Knoepfler, N. B.
Vapor Phase Boric Acid Treatments for Cotton Batting to Meet U.S. Mattress Flammability Standard FF 4-72, p. 121

Krishnan, S.
Polyurethane Coatings to Meet Air Pollution Regulations, p. 39

Leitner, G. J.
A New Flame Retardant – Water Repellent Finish for Tenting Fabrics, p. 3

Lerner, A.
Polyesters in Urethane Fabric Coatings, p. 20

Lopez, M. T.
Relative Toxicity of Pyrolysis Products from Some Upholstery Fabrics, p. 155

Lyons, D. W.
The Use of Microwave Drying in the Application of Flame Retardants for Cotton Fabrics, p. 105

McCusker, J. H.
Some Considerations in Determining Abrasion Resistance of Coated Fabrics, p. 91

Madacsi, J. P.
Vapor Phase Boric Acid Treatments for Cotton Batting to Meet U.S. Mattress Flammability Standard FF 4-72, p. 121

Some Considerations in Determining Abrasion Resistance of Coated Fabrics, p. 91

Madacsi, J. P.
Vapor Phase Boric Acid Treatments for Cotton Batting to Meet U.S. Mattress Flammability Standard FF 4-72, p. 121

Mischutin, V.
Caliban F/R P-44 A Brominated Flame Retardant for Textiles, p. 226
A Flame Retardant Coating for Textile Applications, p. 182

Nakajima, W. N.
The Use of Various Phosphonium Salts for Flame Retardance by the Ammonia Cure Technique, p. 121

Neumeyer, J. P.
Vapor Phase Boric Acid Treatments for Cotton Batting to Meet U.S. Mattress Flammability Standard FF 4-72, p. 121

Pepperman, A. B., Jr.
The Use of Microwave Drying in the Application of Flame Retardants for Cotton Fabrics, p. 105

Pittenger, F.
Preparation of Polyurethane Coated Fabrics by Film Lamination, p. 85

Polfus, W. F.
Coloring Coated Fabrics by the Use of Pigments, p. 151

Schulman, S.
Protection From Fire: Nonflammable Fabrics and Coatings, p. 48

Scott, P. H.
Fabrethane, A One Component Urethane Foam Fabric Coating, p. 13

Tanner, J. C.
Gore-Tex Waterproof Breathable Laminates, p. 28

Vail, S. L.
The Use of Microwave Drying in the Application of Flame Retardants for Cotton Fabrics, p. 105

SUBJECT INDEX

Air Pollution Regulations
Polyurethane Coating to Meet Air Pollution Regulations, p. 39

Ammonia Cure Technique
The Use of Various Phosphonium Salts for Flame Retardance by the Ammonia Cure Technique, p. 105

Awings and Custom Products
Canadian Textile Products, p. 79

Bonding Polyurethane Films
Preparation of Polyurethane Coated Fabrics by Film Lamination, p. 85

Cotton Batting
Vapor phase Boric Acid Treatments for Cotton Batting to Meet U.S. Mattress Flammability Standard FF 4-72, p. 121

Direct Coated Fabrics
Polyurethane Direct Coated Fabric for Industrial Uses, p. 200

Embossing Polyurethane Films
Preparation of Polyurethane Coated Fabrics by Film Lamination, p. 85

Film Lamination
Preparation of Polyurethane Coated Fabrics by Film Lamination, p. 85

Flame Retardants
A New Flame Retardant – Water Repellent Finish for Tenting Fabrics, p. 3
Protection from Fire: Nonflammable Fabrics and Coatings, p. 48
The Use of Microwave Drying Fabrics in the Application of Flame Retardants for Cotton Fabrics, p. 95
The Use of Various Phosphonium Salts for Flame Retardance by the Ammonia Cure Technique, p. 106
Flame Retardants, p. 182
A Brominated Flame Retardant for Textiles, p. 226

Flood Barriers, Fabric
Rubberized Industrial Fabrics to Help Save Venice, p. 195

Fluoro-Polymer
Gore-Tex Waterproof Breathable Laminates, p. 28

High Solids Coatings
Polyurethane Coating to Meet Air Pollution Regulations, p. 39

Home Furnishing
Relative Toxicity of Pyrolysis Products from Some Upholstery Fabrics, p. 155

Hot Melt Coatings
Polyurethane Coating to Meet Air Pollution Regulations, p. 39

Inorganic Color Pigments
Coloring Coated Fabrics by the Use of Pigments, p. 151

Inflatables
Polyurethane Direct Coated Fabric for Industrial Uses, p. 200

Korean Fabric Markets
Korea Grows to be the Largest Urethane Fabric Supplier in the World, p. 213

Korean Leather Markets
Korean Artificial Leather Markets, p. 74

Labels
Polyurethane Direct Coated Fabric for Industrial Uses, p. 200

Latex Selection
A Brominated Flame Retardant for Textiles, p. 226

Mattress Flammability
Vapor Phase Boric Acid Treatments for Cotton Batting to Meet U.S. Mattress Flammability Standard FF 4-72, p. 121

Nylon Market
Polyurethane Direct Coated Fabric for Industrial Uses, p. 200

Organic Color Pigments
Coloring Coated Fabrics by the Use of Pigments, p. 151

Outdoor Recreation Products Market
Market Summary – Canadian Textile Products, p. 79

Pigment Coatings
Polyurethane Coating to Meet Air Pollution Regulations, p. 39

Pyrolysis, Upholstery Fabrics
Relative Toxicity of Pyrolysis Products from Some Upholstery Fabric, p. 155

Rainwear
Polyurethane Direct Coated Fabric for Industrial Uses, p. 200

Reinforced Fabrics
Industrial Woven Fabrics for Soil Stabilization, p. 208

Reservoir Linings
Civil Engineering with Reinforced Membranes, p. 57

Road Construction
Reinforced Woven Fabrics for Soil Stabilization, p. 208

Roofing Membrances
Light Fabric-Based Roof Construction Becoming Popular In Modern Building, p. 70

Roofs
Fabric Lined Purification Basin, p. 137

Rubberized Fabrics
Rubberized Industrial Fabrics to Help Save Venice, p. 195

Safety Clothing
Polyurethane Direct Coated Fabric for Industrial Uses, p. 200

Shoe Poromerics
The Evolution of Synthetics for the Shoe Industry, p. 176

Structure – Property Relationships
Polyesters and Urethane Fabric Coatings, p. 20

Supporting Fabrics
Fabric Lined Purification Basin, p. 137

Synthetic Leather
Korean Artificial Leather Industry at the Exciting Stage, p. 74
The Evolution of Synthetics for the Shoe Industry, p. 176
Synthetic Leather Making in Asia – A Rapidly Growing Industry, p. 219

Taber Abradion Test
Some Considerations in Determining Abrasion Resistance of Coated Fabrics, p. 91

Tenting Fabrics
A New Flame Retardant – Water Repellent Finish for Tenting Fabrics, p. 3
A Brominated Flame Retardant for Textiles, p. 226

Truck Covers
Market Summary – Canadian Textile Products, p. 79
Fabric Products And Markets in Truck Transportation, p. 141
Polyurethane Direct Coated Fabrics for Industrial Uses, p. 200

Urethane Coatings
Fabrethane, A One Component Foam Fabric Coating, p. 13
Polyesters and Urethane Fabric Coatings, p. 20
Preparation of Polyurethane Coated Fabrics by Film Lamination, p. 85
Synthetic Leather Making in Asia, p. 219

Urethane Fabrics
Korea Grows to be the Largest Urethane Fabric Supplier in the World, p. 213

Urethane Latices
Polyurethane Coating to Meet Air Pollution Regulations, p. 39

Waterproof Laminates
Goretex Waterproof Breathable Laminates, p. 28

Water Repellent Finishes
Water Repellent Finish for Tenting Fabrics, p. 3
